Manuskript afsluttet den 22. oktober 1979

Manuscript completed 22 October 1979

Manoscritto terminato il 22 ottobre 1979

**Arbejdsløshed: stabilitet i Fællesskabet som helhed**

Inden for de sidste tre måneder lå antallet af arbejdsløse i hele Fællesskabet på 5,9 mio. Dette antal udgør stadig 5,4% af den civile erhvervsaktive befolkning i Fællesskabet. I forhold til august måned faldt arbejdsløsheden i sæsonkorrigerede tal med 1,2%, hvilket bekræfter tendensen, man kunne registrere først på sommeren. Selv om udviklingen i de forskellige lande er uensartet, fortsatte den tendens, man kunne registrere i hvert medlemsland mellem juli og august, også i september måned: nedgang i Tyskland, Italien, Nederlandene, Det forenede Kongerige, Irland og Danmark, stigning i Frankrig og Belgien. Denne situation i de enkelte medlemslande bekræftes, hvis man sammenligner med de tilsvarende måneder forrige år i bruttotal, dog med én undtagelse: i Nederlandene konstateres en mindre stigning (1,1%).

**Industriproduktionen: svag nedgang i juli**

Indekset for Det europæiske Fællesskabs industriproduktion i sæsonkorrigerede tal viste en svag nedgang i juli (-0,6%). Denne relative stabilitet finder man også, hvis man sammenligner med den tilsvarende periode i 1978. Stigningen var i juli 4,7%, hvilket er næsten det samme som i april og i maj, men det er mindre end i juni. I juli skete der en nedgang i industriproduktionen i alle medlemsstaterne med undtagelse af Italien og Danmark. Ligeledes er stigningen i produktionen på kort sigt aftaget både for Fællesskabet som helhed og i størstedelen af de enkelte medlemsstater (Tyskland, Nederlandene, Belgien, Det forenede Kongerige, Luxembourg). Endvidere registreredes en aftagende stigning på kort sigt for de tre produktionsgrupper: mellemprodukter, investeringsgoder og forbrugsgoder.

**Samhandelen inden for Fællesskabet: kraftig værdimæssig stigning**

I de første syv måneder af 1979 steg samhandelen mellem medlemsstaterne (i ERE) i værdi med ca. 20% i forhold til den samme periode i 1978, idet den steg fra 104 til 125 mrd ERE.

De lande, som har haft den største stigning i importen fra andre medlemsstater, er Det forenede Kongerige (+32%), Irland (+30%) og Italien (+27%), mens det for eksportens vedkommende foruden Italien og Det forenede Kongerige (+26%) var Tyskland med 20%. Irland, Belgien og Nederlandene er stadig de lande, hvis samlede handel hovedsagelig foregår inden for Fællesskabet og udgør henholdsvis 73%, 69% og 65%.

Nederlandene har det største overskud på handelsbalancen for samhandelen inden for Fællesskabet (+3,7 mrd ERE), hvilket især skyldes den olie, der importeres til Nederlandene og reeksporteres til andre medlemsstater; herefter følger Tyskland (+1,7 mrd) og Italien (+403 mio.), mens Det forenede Kongerige noterede sig for det største underskud (-2,6 mrd).

**Fællesskabets samhandel med tredjelande: meget stort underskud på balancen**

Efter de betydelige olieprisstigninger kunne man på Fællesskabets handelsbalance i løbet af årets første syv måneder registrere et betydeligt underskud: -10,6 mrd ERE, hvoraf alene -1,3 mrd for juli måned, mens underskuddet for den tilsvarende periode sidste år udgjorde mindre end en tredjedel (-3,1 mrd ERE) af dette års underskud. Det største underskud blev registreret i Nederlandene (-4,5 mrd ERE), hvor det hovedsagelig skyldes den reeksporterede olie til andre medlemsstater. Det forenede Kongeriges underskud (-4,0 mrd ERE) er ligeledes meget stort, mens Tyskland er det eneste land med et overskud i størrelsesordenen 4,4 mrd ERE.

Importen fra tredjelande er steget i værdi med +16% for samtlige medlemsstater i perioden januar-juli 1979 i forhold til den samme periode i 1978. Kun Det forenede Kongerige (+7,6%) kunne registrere en stigning under fællesskabsgennemsnittet, mens stigningen var særlig stor for Irlands vedkommende (+25%), Italien (+22%) og Tyskland (+20%).

Hvad eksporten angår, var den værdimæssige stigning 9,5% for Fællesskabet som helhed med et ubetydeligt fald for Det forenede Kongerige (-1%) og en kraftig stigning for Belgien (18%) og Italien (15%).

**Forbrugerpriser i september 1979**

Forbrugerprisindekset for EF-landene som helhed steg med **1,1%** fra august til september 1979.

Den største stigning registreredes i Italien (2,3%).

Andre betydelige stigninger bemærkedes i Frankrig (skønnet til 1,3%), i Danmark (skønnet til 1,1%), i Det forenede Kongerige (1,0%) og i Nederlandene (1,0%).

Stigningen forblev moderat i Luxembourg (0,6%), mens der i Belgien og i Forbundsrepublikken Tyskland registreredes meget lave stigninger (0,2% og 0,1%).

Siden september 1978 er priserne for EUR 9 steget **11,5%**; tallet for USA skulle blive af samme størrelsesorden (skønnet til 11,9%).

**Penge og finanser: tilpasning af valutaerne i Det europæiske monetære System (EMS)**

Anden halvdel af september måned var præget af spekulation mod dollaren og guld, hvilket førte til spændinger inden for EMS. Valutamyndighedernes bestræbelser på at bremse spekulationen ved hjælp af renteforhøjelser (den danske diskonto blev den 17. september forhøjet fra 9 til 11% og den amerikanske diskonto fra 10,5 til 11% den 19. september) fik ikke den forventede virkning på bevægelserne i den kortfristede kapital. Derfor besluttede EMS-landene at foretage en ændring i DM'ens og den danske kronens centralkurser gældende fra den 24. september. Disse beslutninger medførte følgende ændringer i krydskurserne:

— 5% mellem DM og den danske krone;

— 2% mellem DM og FF, LIT, HFL, BFR, LFR, IRL.

Krydskurserne mellem FF, LIT, HFL, BFR, LFR og IRL forbliver uændret.

DM'ens og den danske kronens nye centralkurser over for ECU'en fastsættes til 1 ECU = 2,48557 DM og 1 ECU = 7,36594 dkr. Denne tilpasning af de europæiske valutakurser løste imidlertid ikke problemerne i forbindelse med dollaren, som fortsatte sit fald i løbet af den sidste uge af september. Derfor blev den amerikanske diskonto den 7.10. hævet til 12%. Denne beslutning blev ledsaget af en række valutapolitiske foranstaltninger, som især havde til formål at kontrollere udviklingen i pengeforsyningen. Dette medførte en stabilisering i dollarkurserne i de seneste uger.

## MAIN DEVELOPMENTS

EN

### Unemployment: stability in the Community

During the past three months the number of unemployed persons in the Community as a whole was 5.9 million. This number still represents 5.4% of the civilian working population in the Community. Compared with August, the seasonally adjusted unemployment figures showed a drop of 1.2%, thus confirming the trend noted since the beginning of the summer. Although different from one country to another, the trend noted in each Member State between July and August was confirmed in September: decrease in Germany, Italy, the Netherlands, the United Kingdom, Ireland and Denmark, and an increase in France and Belgium. The national situations are confirmed by comparing the gross figures with those for the corresponding month of 1978, although there is one exception, namely the Netherlands, where a slight increase (1.1%) was recorded.

### Industrial production: slight fall in July

The seasonally adjusted index of industrial production in the European Community fell slightly in July (-0.6%). This relative stability is also found when the index is compared with the corresponding period of 1978: the rate of change in July (+4.7%) is similar to the rates for April and May but lower than in June.

In July industrial output fell in all the Member States except Italy and Denmark. Similarly, the short-term increase in output slowed down both for the Community as a whole and in the majority of the Member States (Germany, Netherlands, Belgium, United Kingdom, Luxembourg). This slowing down in short-term growth was also noted for the three sectors, viz. intermediate products, capital goods and consumer goods.

### Intra-Community trade: substantial increase in value

Over the first seven months of 1979 the value of trade between Member States (calculated in EUA) rose by around 20% (from 104 to 125 thousand million EUA) compared with the corresponding period of 1978.

The countries with the highest increases in imports from other Community countries were the United Kingdom (+32%), Ireland (+30%) and Italy (+27%), while on the export side Italy and the United Kingdom again led the way (+26%), followed by Germany (+20%). Ireland, Belgium and the Netherlands still conduct the bulk of their total trade with other Community countries (73, 69 and 65% respectively).

The Netherlands has the highest surplus on its intra-Community trade balance (+3.7 thousand million EUA), this being due primarily to oil imported into the Netherlands and re-exported to the other Member States; it is followed by Germany (+1.7 thousand million EUA) and Italy (+403 million EUA), while the United Kingdom has the largest deficit (-2.6 thousand million EUA).

### Community external trade: very substantial deficit on the trade balance

Following the sharp increase in the price of oil, the Community's trade balance showed a substantial deficit over the first seven months of the year: -10.6 thousand million EUA, including -1.3 thousand million EUA for July alone, whereas at the same time last year the deficit (-3.1 thousand million EUA) was less than one-third of this year's. The highest deficit was recorded by the Netherlands (-4.5 thousand million EUA), this being due mainly to oil subsequently re-exported to the other Member States. The United Kingdom's deficit (-4.0 thousand million EUA) is likewise very high, while Germany is still the only country with a surplus (around 4.4 thousand million EUA).

Over the period from January to July 1979 the value of the Community's imports from non-member countries rose by 16% compared with the same period of 1978. Only the United Kingdom (+7.6%) recorded an increase below the Community average, whereas Ireland (+25%), Italy (+22%) and Germany (+20%) showed particularly substantial increases.

The value of sales went up by 9.5% for the Community as a whole, with a slight drop for the United Kingdom (-1%) and a considerable increase for Belgium (18%) and Italy (15%).

### Consumer prices in September 1979

The consumer price index for the EC as a whole rose by 1.1% from August to September 1979. The biggest increase was recorded in Italy (2.3%). There were also significant increases in France (estimate: 1.3%), Denmark (estimate: 1.1%), the United Kingdom (1.0%) and the Netherlands (1.0%). The rise for Luxembourg remains moderate (0.6%), whereas Belgium and the FR of Germany experienced only very low increases (0.2 and 0.1%). Since September 1978 prices have risen by 11.5% for EUR 9; the figure for the USA will probably be about the same (estimate: 11.9%).

### Finance: realignment of the currencies in the European Monetary System (EMS)

The second half of September was marked by wave of speculation against the dollar and on gold, leading to tensions within the EMS. The monetary authorities' efforts to curb this speculation through a policy of putting up interest rate (the Danish bank rate went up from 9 to 11% on 17 September and that of the American Federal Reserve System from 10.5 to 11% on 19 September) did not have the anticipated effect on short-term capital movements. The members of the EMS therefore decided to amend the central rates of the Deutschmark and the Danish Krone with effect from 24 September. These decisions resulted in the following changes in cross rates:

- 5% between the DM and the Dkr;
- 2% between the DM and the FF, Lit, Fl, Bfr, Lfr and £Irl.

The cross rates between the FF, Lit, Fl, Bfr, Lfr and £Irl remained unchanged.

The new central rates between the Ecu and the DM and Dkr are fixed at 1 Ecu = DM 2.48557 and Dkr 7.36594. However, this realignment of European exchange rates did not solve the problem of the dollar, which continued to fall during the last week of September. The American bank rate had therefore to be increased to 12% on 7 October. This decision was accompanied by a package of monetary policy measures designed in particular to control the growth in money supply. The overall effect has been a stabilization in dollar exchange rates over the past few weeks.

**Disoccupazione: stabilità a livello comunitario**

Negli ultimi tre mesi il totale dei disoccupati nell'intera Comunità è stato di circa 5,9 milioni di persone, cifra che rappresenta pur sempre il 5,4% della popolazione attiva civile della Comunità. Sulla scorta dei dati corretti delle variazioni stagionali, la disoccupazione risulta diminuita in settembre dell'1,2% rispetto al mese di agosto, confermando la tendenza che si osserva dall'inizio dell'estate. Sebbene i vari paesi presentino evoluzioni divergenti, in ciascuno di essi si trova confermata, in settembre, la tendenza osservata tra luglio ed agosto: rallentamento in Germania, Italia, Paesi Bassi, Regno Unito, Irlanda e Danimarca, aumento in Francia e in Belgio. Queste situazioni nazionali sono confermate dal confronto, fatto sulla scorta dei dati grezzi, con il mese corrispondente dell'anno scorso, con una sola eccezione: i Paesi Bassi, ove si osserva un lieve incremento del numero dei disoccupati (+1,1%).

**Produzione industriale: lieve flessione nel mese di luglio**

L'indice della produzione industriale della Comunità europea, corretto delle variazioni stagionali, ha registrato nel mese di luglio una lieve diminuzione (-0,6%). Questa relativa stabilità si ritrova nel confronto con il periodo corrispondente del 1978: il tasso di variazione del mese di luglio (+4,7%) è vicino a quelli di aprile e maggio, ma inferiore a quello di giugno.

In luglio si osserva una diminuzione della produzione industriale in tutti gli Stati membri, ad eccezione dell'Italia e della Danimarca. Analogamente, la crescita a breve termine della produzione si è rallentata sia per il complesso della Comunità che per la maggior parte degli Stati membri (Germania, Paesi Bassi, Belgio, Regno Unito, Lussemburgo). Il rallentamento della crescita a breve termine si osserva anche per i tre gruppi di branche: beni intermedi, beni d'investimento e beni di consumo.

**Comercio intracomunitario: forte espansione in valore**

Il commercio tra gli Stati membri (calcolato in UCE) è aumentato, in valore, del 20% circa, tra i sette primi mesi del 1979 e il corrispondente periodo del 1978, passando da 104 a 125 miliardi di UCE.

I paesi che hanno maggiormente aumentato i loro acquisti nella Comunità sono il Regno Unito (+32%), l'Irlanda (+30%) e l'Italia (+27%), mentre per le esportazioni, accanto all'Italia e al Regno Unito (+26%), si ritrova la Germania, con un aumento del 20%. L'Irlanda, il Belgio e i Paesi Bassi restano i paesi per i quali il commercio intracomunitario rappresenta la massima parte del totale dei loro scambi con l'estero, con quote pari rispettivamente al 73%, 69% e 65%.

I Paesi Bassi presentano il saldo attivo più elevato della bilancia commerciale intracomunitaria (+3,7 miliardi di UCE); ciò è dovuto soprattutto al petrolio importato nei Paesi Bassi e riesportato verso gli altri Stati membri; seguono, nell'ordine, la Germania (+1,7 miliardi) e l'Italia (+403 milioni), mentre il maggior disavanzo è quello registrato dal Regno Unito (-2,6 miliardi).

**Commercio estero della Comunità: fortissimo disavanzo della bilancia commerciale**

In seguito al sensibile aumento del prezzo del petrolio, la bilancia commerciale comunitaria ha fatto registrare, nei sette primi mesi dell'anno, un forte disavanzo: -10,6 miliardi di UCE, di cui 1,3 miliardi per il solo mese di luglio, mentre nello stesso periodo dell'anno scorso il disavanzo rappresentava meno di un terzo (-3,1 miliardi di UCE) di quello di quest'anno. Il disavanzo di maggiore entità è quello registrato dai Paesi Bassi (-4,5 miliardi di UCE) ed è dovuto essenzialmente al petrolio successivamente riesportato verso gli altri Stati membri. Anche il disavanzo del Regno Unito (-4,0 miliardi di UCE) è molto rilevante; la Germania continua ad essere, per contro, il solo paese che presenta un attivo, dell'ordine di ben 4,4 miliardi di UCE.

Tra gennaio e luglio del 1979 le importazioni dai paesi extracomunitari sono aumentate, in valore, del 16% per il complesso dei paesi membri, rispetto al corrispondente periodo del 1978. Solo il Regno Unito (+7,6%) ha fatto registrare un aumento inferiore alla media comunitaria, mentre l'aumento risulta particolarmente sensibile per l'Irlanda (+25%), l'Italia (+22%) e la Germania (+20%).

Dal lato delle esportazioni, l'aumento in valore è stato del 9,5% per il complesso della Comunità, con un lieve regresso per il Regno Unito (-1%) e un forte incremento per il Belgio (18%) e l'Italia (15%).

**I prezzi al consumo nel settembre 1979**

L'indice dei prezzi al consumo per la totalità dei paesi della CE è aumentato di **1,1%** da agosto a settembre 1979. L'aumento più forte si è avuto in Italia (2,3%).

Altri aumenti importanti sono stati registrati in Francia (1,3% stima), in Danimarca (1,1% stima), nel Regno Unito (1,0%) e nei Paesi Bassi (1,0%).

L'aumento rimane moderato per il Lussemburgo (0,6%), mentre il Belgio e la Germania hanno fatto registrare degli aumenti molto deboli (0,2 ed 0,1%).

Da settembre 1978 in poi, i prezzi per EUR 9 sono aumentati di **11,5%**; la cifra per gli Stati Uniti dovrebbe trovarsi nello stesso ordine di grandezza (11,9% stima).

**Finanze: nuovo allineamento delle valute del sistema monetario europeo (SME)**

La seconda parte del mese di settembre è stata caratterizzata da ondate di speculazione contro il dollaro e sull'oro, che hanno portato a tensioni all'interno dello SME. Gli sforzi delle autorità monetarie per frenare la speculazione con una politica di aumento dei tassi d'interesse (il tasso di sconto danese è passato dal 9 all'11%, il 17 settembre, quello del « Federal Reserve System » americano dal 10,5 all'11% il 19 settembre) non hanno avuto l'effetto sperato sui movimenti dei capitali a breve termine. Per questo motivo i paesi partecipanti allo SME hanno deciso una modifica dei corsi di riferimento del marco tedesco e della corona danese, in vigore dal 24 settembre. Queste decisioni hanno comportato le seguenti modifiche delle parità (tassi incrociati):

- 5% tra DM, da un lato, e corona danese, dall'altro;
- 2% tra DM, da un lato, e FF, LIT, HFL, BFR, LFR, IRL, d'altro lato.

I tassi incrociati tra FF, LIT, HFL, BFR, LFR e IRL restano immutati.

I nuovi tassi centrali rispetto all'ECU del DM e dalla DKR sono fissati a 1 ECU = 2,48557 DM e 1 ECU = 7,36594 DKR. Tuttavia questi riallineamenti dei tassi di cambio europei non hanno risolto il problema del dollaro, che nell'ultima settimana del mese di settembre ha continuato la sua caduta. Per questo motivo il 7 ottobre il tasso di sconto americano ha dovuto essere portato al 12%. Questa decisione è stata accompagnata da un complesso di provvedimenti di politica monetaria, volti in particolare a controllare l'evoluzione della massa monetaria. Tutto questo ha avuto come conseguenza una stabilizzazione del corso del dollaro nelle ultime settimane.

Denne publikation omfatter to dele: den ene indeholder »fællesskabstabeller« og den anden »tabeller efter lande«.

I »fællesskabstabellerne« er samlet de vigtigste indikatorer for Fællesskabets og for hver medlemsstats økonomiske udvikling på kort sigt, uddybet med nogle strukturelle oplysninger for året 1975. Denne del, som skal muliggøre sammenligninger mellem landene, indeholder der for kun af EUROSTAT harmoniserede tal, på grundlag af fælles kriterier, hvilket forklarer visse uoverensstemmelser med de nationale tal.

Rækkerne er korrigerede for sæsonvariationer ved hjælp af EUROSTAT's »Dainties«-metode. **De mest aktuelle tal er foreløbige og i visse tilfælde direkte skønnede af EUROSTAT.**

Som indikator for verdenskonjunkturudviklingen indeholder »fællesskabstabellerne« en søjle for USA.

I »tabellerne efter lande« er for hvert land udvalgt de for det pågældende land mest anvendte konjunkturrelle indikatorer; det drejer sig om nationale rækker, i overensstemmelse med nationale kriterier og sæsonkorrigerede efter nationale metoder. I denne del er der ud

over Fællesskabets ni medlemslande medtaget kandidatlandene Spanien, Grækenland og Portugal, såvel som USA og Japan.

For alle rækkerne findes de historiske tal (årlege, kvartals- og månedstal) i EUROSTAT's databank CRONOS. Almindeligvis går tallene tilbage til 1960, og kan oplyses på anmodning.

Denne publikation indeholder kun et yderst minimalt antal metodologiske bemærkninger. Oplysninger om definitioner, metoder, fællesskabstilpasninger og kilder for hver enkelt række vil blive givet i en specialudgave af »EUROSTATISTIK«; hvori de statistiske angivelseres definitioner, metoder, tilpasninger og kilder vil blive beskrevet.

Der udkommer to udgaver af »EUROSTATISTIK« hver måned. Den ene affattet på dansk, engelsk og italiensk leveres til trykning den fjerde tirsdag hver måned, og vil kunne fås i hovedstæderne den følgende mandag. Den anden affattet på tysk, fransk og nederlandsk leveres til trykning den anden tirsdag hver måned, og vil kunne fås i hovedstæderne den følgende mandag. Hver udgave indeholder de mest aktuelle tal til disposition den dag leveringen til trykning finder sted.

## PREFACE

EN

This bulletin is in two parts: 'Community Tables' and 'Country Tables'.

The Community Tables contain the main indicators useful for following short-term economic developments in the Community as a whole and in the Member States, supplemented by a certain amount of structural data relating to 1975. This part of the bulletin is intended to make possible real comparisons between countries and therefore only contains data which has been harmonized by EUROSTAT on the basis of common criteria, this explains many of the differences from national series.

Seasonal adjustment of the series has been done with EUROSTAT's own method, 'Dainties'. **The most recent data are provisional and in some cases estimated by EUROSTAT.**

Finally the Community Tables include a column for the USA as an indicator of changes in the world economy.

The Country Tables contain a selection of the economic indicators most often used in each country. They are national series based on

the definitions of the country concerned and seasonally adjusted by the country. In addition to the nine Community countries this section includes the three candidate countries (Spain, Greece and Portugal) the USA and Japan.

For all series, historical data (annual, quarterly or monthly) is available in EUROSTAT's CRONOS data bank, going back in most cases to 1960. This can be supplied on request.

This publication contains the absolute minimum of methodological notes. Details of definitions, methods, Community adjustments and sources of each series will be given in a special edition of 'Eurostatistics'.

Two versions of 'EUROSTATISTICS' come out every month. The first in Danish, English and Italian goes to the printers the fourth Tuesday of the month and will be distributed in the national capitals the following Monday. The second in German, French and Dutch goes to the printers the second Tuesday of the month and will be distributed in the national capitals the following Monday. Each version will contain the latest figures available when it went to press.

## AVVERTENZA

IT

Il presente bollettino consta di 2 parti: l'una ha per oggetto alcune « tavole comunitarie », l'altra riguarda alcune « tavole per paese ».

Nelle tavole « comunitarie » si trovano riuniti i principali indicatori che consentono di seguire l'evoluzione di breve periodo dell'economia comunitaria nel suo complesso e in ogni singolo Stato membro, completati da alcuni dati strutturali relativi al 1975. Questa parte, che si prefigge di consentire di stabilire confronti reali fra paesi, contiene soltanto dati armonizzati dall'EUROSTAT in base a criteri nazionali, il che spiega l'esistenza di certe differenze rispetto ai dati nazionali.

Le variazioni stagionali delle serie sono eliminate con il metodo « Dainties » dell'EUROSTAT. **I dati più recenti sono provvisori e, a volte direttamente stimati da EUROSTAT.**

Nelle tavole comunitarie figura una colonna relativa agli Stati Uniti d'America a titolo di indicatore dell'evoluzione della congiuntura mondiale.

Nelle « tavole per paesi » si riporta una selezione degli indicatori congiunturali più correntemente adoperati in ogni paese; si tratta di serie nazionali, corrispondenti ai criteri nazionali e « destagionaliz-

zate » per mezzo dei metodi nazionali. In questa parte sono presi in considerazione oltre ai 9 paesi membri della Comunità, i paesi candidati all'adesione: Grecia, Portogallo, Spagna, nonché gli Stati Uniti d'America e il Giappone.

Per tutte le serie, presso il sistema CRONOS dell'EUROSTAT sono disponibili dati storici (annui, trimestrali o mensili) risalenti in generale al 1960, i quali possono essere forniti su richiesta.

La presente pubblicazione contiene soltanto annotazioni metodologiche ridotte allo stretto minimo. Le informazioni relative alle definizioni, ai metodi, agli aggiornamenti comunitari e alle fonti di ogni serie saranno riportate in un fascicolo speciale (ad hoc) di EUROSTATISTICHE avente per oggetto le definizioni, i metodi, gli aggiornamenti e le fonti dei dati statistici.

Ogni mese vengono pubblicate due versioni di « EUROSTATISTICHE ». La prima redatta in danese, inglese e italiano, che va in stampa il 4° martedì di ogni mese, sarà diffusa nelle capitali il lunedì successivo; la seconda redatta in tedesco, francese e olandese, che va in stampa il 2° martedì di ogni mese, sarà diffusa nelle capitali il lunedì successivo. Ogni versione riporta le ultime cifre disponibili il giorno della stampa.

## DI RECENTE PUBBLICAZIONE

87

(1) Alcuni dati più dettagliati per branca sono riportati nel bollettino « Indicatori congiunturali dell'industria ».

(2) I dati contenuti in questa parte del bollettino rappresentano i risultati dell'indagine sulla congiuntura presso i capi di impresa delle Comunità. Alcuni dati più particolari figurano in « Economia europea ».

(3) Alcuni dati del commercio estero più dettagliati ed espressi in UCE sono riportati nel « Bollettino mensile del commercio estero ».

(4) Eonsumi finali delle famiglie.

DE

Die deutsche Fassung dieses Bulletins wird am zweiten Dienstag jeden Monats in Druck gegeben.

FR

La version française de ce bulletin est mise sous presse le second mardi de chaque mois.

NL

De Nederlandse versie van dit bulletin gaat de tweede dinsdag van elke maand ter perse.

Detaljerede resultater af medlemslandenes nationalregnskaber opstillet efter ENS (Det europæiske Nationalregnskabssystem)  
— Bind I indeholder data vedrørende vare- og tjenesteydelsestransaktionernes værditilvækst, husholdningernes konsum og faste bruttoinvesteringer samt sammenlignelige oplysninger om den samlede beskæftigelse og om antal lønmodtagere. Endvidere er vist de finansielle transaktioner vedrørende ændringer i tilgodehavender og gæld.  
— Bind II (1) indeholder fordelingstransaktionerne løn- og personaleudgifter, indkomster fra ejendomme og selskaber samt sociale bidrag og ydelser. Fordelingstransaktionerne er mellem økonomiers institutionelle sektorer (husholdninger, selskaber, offentlige administrationer osv.). Yderligere suppleres med mere detaljerede tabeller for løn- og personaleudgifter samt sociale bidrag og ydelser.

(1) Vil udkomme i oktober.

Rubinfarvet serie:

Energistatistisk Årbog 1973-1977

ISBN 92-825-0880-3

350 sider. Format A 4  
Flersproget udgave. Udkommet i September 1979

Pris :	
BFR 800	LIT 22 600
DKR 141	HFL 55
DM 51	UKL 13,50
FF 116	USD 27

Første kapitel er forbeholdt indikatorerne for energiøkonomien og den »Totale energiopgørelse« for Fællesskabet og hvert af de ni medlemslande. Disse opgørelser, der kaldes »primærenergiækvivalent-opgørelser«, og hvis metodologi er baseret på omregnede energetiske ækvivalenter blandt energikilder i forsyningsleddet, er udtrykt i tohs olieækvivalenter og fordelt efter produkter.  
De næste kapitler indeholder de specifikke opgørelser og enkelte vigtige serier for tidligere år udtrykt i fysiske enheder for hver energikilde.  
I et bilag findes de seneste opgørelser af typen »leveret energi«, hvor alle transaktioner er opført på grundlag af hver enkelt energikilde og -forms faktiske energetiske indhold uden nogen substitution eller ækvivalensberegning. For at lette anvendelsen af denne dokumentation er den lavet efter et løbladssystem, der giver opgørelserne både i særlige enheder og i Terajoule for Fællesskabet og for hvert enkelt medlemsland.

Detailed results of the national accounts of the Member States in accordance with the ESA (European System of Integrated Economic Accounts)

- The first volume gives data on transactions in goods and services (value added, final consumption of households, gross fixed capital formation and figures on a comparable basis for the occupied population and wage and salary earners) as well as financial transactions (change in assets and liabilities)
- The second volume (1) presents the distributive transactions such as compensation of employees, property income, social contributions etc. between the institutional sectors (e.g. households, companies, government). Supplementary tables analyse compensation of employees and social benefits and contributions in more detail.

(1) Will be published in October.

	DKR 141	HFL 55
	DM 5.1	UKL 13.50
	FF 116	USD 27

350 pages. Format A 4  
Multilingual edition published in September 1979

The first chapter covers energy economic indicators and the overall energy balance sheet of the Community and of each of the nine Member States. These balance sheets, called 'primary input energy' balance sheets, whose methodology, particularly where electrical energy is concerned, is based on the energy equivalents for substitution of energy sources at the supply stage, are drawn up in tonnes of oil equivalent and broken down by product.

The succeeding chapters give the balance sheets and a number of important historical series expressed in physical units of each energy source.

The Annex contains 'energy supplied' balance sheets for the most recent year available in which all operations are entered in terms of the actual energy content of each source and form of energy without any substitution being assumed or any equivalence calculated. To make this documentation easier to handle, it is arranged in loose sheets giving the balance sheets in specific units on the one hand and in terajoules on the other, both for the Community and for each of the Member States.

Risultati analitici dei conti nazionali dei paesi membri elaborati secondo il SEC (Sistema europeo di conti economici integrati).  
— Il primo volume presenta i dati che riguardano le operazioni su beni e servizi (valore aggiunto, consumi finali delle famiglie, investimenti fissi lordi, e, in un ambito comparabile, dei dati sull'occupazione totale e sull'occupazione dipendente), e le operazioni finanziarie (variazioni delle attività e delle passività).  
— Il secondo volume <sup>(1)</sup> comprende le operazioni di distribuzione e redistribuzione (quali i redditi da lavoro dipendente, da proprietà dell'impresa, contributi e prestazioni sociali) fra i settori istituzionali dell'economia (famiglie, società, amministrazioni pubbliche ecc.). Alcune tabelle complementari presentano in modo più dettagliato i redditi da lavoro dipendente, i contributi e le prestazioni sociali.

<sup>(1)</sup> Pubblicazione prevista per ottobre.

Serie rubino

Annuario delle statistiche dell'energia 1973-1977

ISBN 92-825-0880-3	Prezzo :	
	BFR 800	LIT 22 600
	DKR 141	HFL 55
350 pagine. Formato A 4	DM 51	UKL 13.50
Edizione multilingue. Settembre 1979	FF 116	USD 27

Il primo capitolo è dedicato agli indicatori dell'economia energetica e al « Bilancio globale dell'energia » della Comunità e di ciascuno dei nove Stati membri. Tali bilanci, detti « Bilanci dell'energia in equivalente primario » la cui metodologia, in particolare per l'energia elettrica, si basa sulle equivalenze energetiche di sostituzione tra fonti d'energia a livello dell'approvvigionamento, sono calcolati in tonnellate di equivalente petrolio e suddivisi per prodotti.  
I capitoli che seguono riportano, per ogni fonte energetica, i bilanci specifici e alcune serie cronologiche importanti espresse in unità fisiche. In allegato figurano, per l'ultimo anno disponibile, bilanci del tipo « Energia finale », in cui tutte le operazioni vengono contabilizzate sulla base del contenuto energetico reale di ogni fonte e forma d'energia, senza alcuna ipotesi di sostituzione né alcun calcolo di equivalenza. Per agevolare l'impiego di tale documentazione, la presentazione è fatta su fogli volanti in cui figurano, per la Comunità, e per i singoli Stati membri, i bilanci in unità specifiche, da un lato, e in terajoule, dall'altro.

[Faint, illegible text covering the majority of the page, likely bleed-through from the reverse side.]
